Wellness Technology For Longevity Management

At K4Connect, we believe wellness drives longevity. That's why we've built an integrated technology ecosystem that connects health, engagement, and smart living; empowering residents to stay independent, informed, and in control.

Connected Health & Wellness Integrations

Thryve Health: Sync with 500+ wearables (Apple Watch, Fitbit, Garmin) to track sleep, activity, and vitals, automatically integrated with RPM and EHR systems.

PointClickCare: Instantly access medications, care plans, and resident insights through real-time EHR integration.

ArtemisCare: eCare4You offers camera-based vitals monitoring, medication tracking, and comprehensive wellness support.

K4Community Plus App
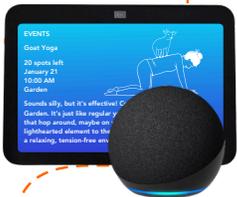

A powerful, central hub for resident engagement.
- Sign up for events, dining, and transportation
- Communicate with staff and fellow residents
- Track personal wellness data from wearable devices

Smart Home Safety

Enable residents to take control of their environment, boosting safety and comfort.
- Voice and app-controlled lighting and thermostats
- Motion sensors for passive monitoring and resident check-in
- Smart door locks and oven sensors for safety
- Automatic, passive Resident Check-In system for staff

Voice Technology

Hands-free access to daily support and connection.
- Voice-powered concierge assistance and reminders
- Companionship features reduce loneliness and isolation
- Seamless integration with smart home devices and wellness tools

K4TV: Wellness Infotainment, On Demand

Broadcast curated content that supports mental, physical, and emotional wellness.
- Research-driven, dementia-friendly content from Zinnia
- Custom health, wellness, and faith-based programming
- Community announcements, activity schedules, and dining menus

Let's Talk Longevity

Discover how your community can elevate wellness and promote independence with K4Connect's longevity-focused technology.
