

K4Community Plus New Feature

Resident Event Invitations

The More the Merrier!

Residents can now invite other residents and add names of external guests right in the Events section of the Plus App.

- Invitations appear in a new **“Invites”** tab under Events in the app.
- Residents can **Accept** or **Decline** invitations directly from this tab.
 - When a resident Accepts an invite, they are added as an attendee under their profile in **My Events**.
 - If a resident Declines, their guest spot opens for others.
- The **Comments Field** allows for additional communication and information collection.
